

Tilt-Top Mobile Table

Tilt-Top Table

- > A fixed height table with a tilt-able top is the basis for this multi-purpose table/mobile markerboard. The table is also available in a sit-stand version.
- > The CPS porcelain steel top sits flat as a working and writing surface; then tilts from 0° — 80° to function as a presentation board. For use in classrooms, libraries, office collaboration spaces; just about anywhere a presentation surface is needed to share ideas and notes.
- > The GO² Shape base frame comes standard with casters making the table mobile. Feet are adjustable up to 4" to achieve ADA height and can accommodate glides in lieu of casters
- > Adding a lower ledge allows the flip top to be used for art, drafting, or viewing plans and resources.
- > Tables shown are 30"d x 72"w. Other sizes, frame colors, features and storage options available. Contact Corona Group for all options and pricing. .

Standard Frame Finishes:

Silver Metallic and Black Frames-Standard; other color options available.

Standard Top Materials:

CPS Magnetic Porcelain Enamel Steel, Laminate or Wood Veneer.

Contact Corona Group for all finish options.
