

Division of Space
Intersection
Space/Fixed Panels

Workspaces influence the work of the people who use them. A good one will foster innovation and productivity. A poor one will be a drag on those things. Intersection Space and Fixed Panel Dividers from Corona Group combine glass or porcelain marker boards, tackable boards, decorative glass and acoustic panels into architectural elements that open and close off areas.

They empower your people by helping them to focus, capture and share ideas more efficiently. They can make your workspaces work harder. And be more agile. Here are some of the ways they do it.

Intersection Space

Available in multiple configurations with glass, porcelain, fabric, Acoustisor, wire mesh, decorative glass, or perforated steel inserts.
Shown with Custom Acoustisor Panels and Decorative Glass Panels in Black Powder Coated Aluminum Frames.
