Glass

If you want to create the optimum environment, appearances matter. A good-looking, inviting environment helps your people do their best day after day, and it makes a positive statement to all your other stakeholders. The clean, contemporary look of Corona Group Glass will help you create that kind of environment.

No other glass company gives you so much freedom to shape your surroundings. Whether used as markerboards or simply as a decorative statement, Corona Glass can be integrated into all our divider system frames, go on the wall or stand free on casters. Corona Glass can be combined with other surface materials for writing, pinning or attaching with magnets. We do custom cutouts and graphics. Background colors are virtually unlimited, and we can even match your paint samples.

No matter what kind of environment, Glass sends a message. And Glass from Corona Group can help you send the right one.
