

elements Mobiles-V1

elements Mobiles-V1

- > A simple aluminum frame in anodized aluminum or black anodized is the foundation of *elements* Mobiles-V1.
- > The *elements* Mobiles-V1 makes use of traditional and non-traditional elements such as Glass, Porcelain enamel steel (white and chalk), fabric, ACOUSTICOR acoustical fabrics, even 100% recycled rubber, creating a wide range of mobile presentation solutions for a multitude of environments.
- > The *elements* Mobiles-V1 is a single board with material on each side creating a two-sided board. It comes standard with a cast aluminum base, lockable casters and can be linked.
- > *elements* Mobiles- V1 standard sizes: 48" to 78" high including casters, widths from 30" to 60"
- > For more information about ACOUSTICOR acoustic panels, custom sizes and mobile board pricing, contact Corona Group.
- > Accessories for all materials are available in Kits or Individually, contact Corona Group for information.
