

Miter Frame Boards

Miter Frame Boards

design: Friis & Moltke

> The vitreous enamel steel surface of the whiteboard is easy to write on and conveys information in a way that facilitates reading. The surface retains magnets, is impact resistant and scratch proof to ensure maximum durability. With individual fabric choices, the Notice Board can be tailored to match any specific room color palette. The matte, non-reflective surface of the chalk board makes it easy on the eye – and easy to clean

Finish:

Matte anodized aluminum frame
Available in whiteboard, notice board, and chalkboard.

Varieties and Dimensions:

White boards

MFB 10001305	36" w	51.3" h
