

## Top 4 Reasons to Specify and Purchase coronaVISUAL Visual Presentation Products

### > REASON #1—Frameless Glass

- Glassboards are 1/4" thick, tempered glass with polished edges.
- Exceptional paint process allows for unparalleled adhesion properties for our hidden Z-Clips mounting brackets, on both magnetic and non-magnetic glassboards.
- Custom colors, custom sizes, custom graphics and custom mounting options are available.

### > REASON #2—Framed Boards

- Architectural design enhances any interior space. The same design and detailing is found on tackboards, whiteboards, chalkboards, and glassboards when framed, creating a cohesive look across the product line.
- Available in the VIP Aluminum Frame as well as OTHER distinctive eisys frames.
- Available in wall mounted, rail mounted or sliding component boards.
- Whiteboards have a Porcelain Enamel Steel Surface that is baked at 800° C, creating a smooth, nonporous, scratch resistant surface. Easily cleaned they carry a minimum 25 year warranty against delamination, crazing or discoloring.
- All whiteboards and chalkboards are magnetic and can be constructed in one piece up to 16' long. The NEW Vertical Whiteboard is a modular board system able to cover an entire wall.
- Framed Glassboards can be magnetic and come in lengths up to 12'.

### > REASON #3—Mobile Products

- Floor Mounted, Sliding and Mobile Components that complement VPP wall mounted products are available.
- Mobile Room Dividers in Fabric, Glass, Porcelain Enamel Steel, Chalk and Acoustic Surfaces, which can also be tackable, are available in a wide range of sizes.
- Mobile Glassboards, Mobile Whiteboards and Mobile Flip Charts come in a variety of sizes.

### > REASON #4—EXIMO

- EXIMO, a unique, patented cleaning pad designed to remove ghosting and permanent ink from eisys Whiteboards. Reusable and cleanable, EXIMO is always part of our exceptional Accessory Packs.
